TOTAL ECLIPSE OF THE BODY: HOW WE LOST SIGHT OF THE MEANING OF SEX, GENDER, MARRIAGE, AND FAMILY AND HOW TO REGAIN IT

In our post-sexual revolution world, we are experiencing a total eclipse of the meaning of the body. A darkness has been cast over our humanity and we can simply no longer see the fundamental significance of the human body to human identity. What has passed in front of the sun blocking the body's meaning? And are there any “astronomers” out there who can explain this phenomenon, who can help us understand why this has happened and if, when, and how the darkness will pass? In this presentation, Christopher West demonstrates how Pope Paul VI’s encyclical Humanae Vitae properly recognized the modern embrace of contraception as the cause of the eclipse, and then demonstrates how Saint John Paul II’s Theology of the Body provides a solid basis for hope that we won’t remain in this darkness indefinitely – the eclipse of the body will pass when, as Mary promised, her Immaculate Heart triumphs.

CHRISTOPHER WEST is a best-selling author, speaker, and world-renowned expert in John Paul II’s Theology of the Body, a bold, biblical vision of love and sexuality that takes us to the core of what it means to be human. Founder and President of the Cor Project, he leads an international outreach devoted to spreading this liberating teaching and empowering others to live and share it.

HUMANAЕ VITAE AT 50: A TRUTH EVER TIMELESS, EVER NEW

We can see God’s ingenious design for our happiness and flourishing in the very way He created us, even in the very design of our bodies. Trying to redesign it according to our own whims only brings woe – the Garden of Eden all over again. Acknowledging it, accepting it and living it faithfully leads us to the deep and lasting happiness that God wants for us: communion with each other, and with Him now and forever in the life of heaven.
